Commencement of Classes	1 <sup>st</sup> July	1 <sup>st</sup> January
End of Classes	12 <sup>th</sup> December	17 <sup>th</sup> May

- The waiting list shall be activated only on the expiry of date of main list: NA
- The policy of refund of the fee, in case of withdrawal, shall be clearly notified- Returned by the Central Admission core committee,

## 12. Criteria and Weight ages for Admission

- Describe each criterion with its respective weight ages: Marks in qualifying examination
- Mention the minimum level of acceptance, if any: NA
- Mention the cut-off levels of percentage and percentile score of the candidates in the admission test for the last three years: Very from Branch to Branch Refer [www.samsodisha.gov.in](http://www.samsodisha.gov.in)
- Display marks scored in Test etc. and in aggregate for all candidates who were admitted-web site \_NA

## 13. List of Applicants

- List of candidate whose applications have been received along with percentile/percentage score for each of the qualifying examination in separate categories for open seats. List of candidate who have applied along with percentage and percentile score for Management quota seats-NA

## 14. Results of Admission Under Management seats/Vacant seats

- Composition of selection team for admission under Management Quota with the brief profile of members (This information be made available in the public domain after the admission process is over) and SPOT admission if the seats are vacant.
- Score of the individual candidate admitted arranged in order or merit: web site
- List of candidate who have been offered admission: web site

- Waiting list of the candidate in order of merit to be operative from the last date of joining of the first list candidate: web site
- List of the candidate who joined within the date, vacancy position in each category before operation of waiting list: web site

- List of Major Equipment/Facilities in each Laboratory/ Workshop:
- Web site List of Experimental Setup in each Laboratory/ Workshop:
- Web site Innovation Cell:

Its primary mandate is to encourage, inspire and nurture young students by exposing them to new ideas and processes resulting in innovative activities. It will undertake major programs such as Network of Innovation Clubs (NIC), ATAL Ranking of Institutions on Innovation Achievements (ARIIA), National Student Startup Policy (NSSP). It will prescribe basic framework for structure, formation, structure and smooth running of ICs in each HEIs and share list of different activities which ICs need to undertake for entire academic year. The fellow's role will focus on supporting the Innovation Cell on specific projects by taking complete ownership from conceptualization to execution, drive decision making through critical/thorough analysis, add value to the Innovation Cell by conceptualizing innovative ideas, and deliver satisfactory results. The focus areas of the Innovation Cell include Innovation Policy, enabling startup communities, facilitating setting up more niche academic and corporate incubators.

## 19. Accounted audited statement for the last three years- YES Audited

### Best Practices adopted, if any

- Each department has an innovation idea cell for improvements of students in their project work.

#### Teaching:

1. Curricula Aspects
2. Teaching-Learning and Evaluation
3. Research, Consultancy and Extension
4. Infrastructure and Learning Resources
5. Student Support and Progression
6. Governance Leadership and Management
7. Innovations and Best Practices

- (1) **Innovative content development:** The curriculum at present is extensive. It required to coverage of the stipulated material – both in terms of depth of coverage and quantity of material covered.

- Ideal courses & Lecturer materials
- compendium of problems (relevant to the Indian context)
- desired practical projects to be associated with the courses
- laboratory manuals & template for laboratory reports
- Supplementary study material for laboratory courses
- e-resource list to enhance the learning process (through specialized software, animations, experimentation platforms).
- Access of NPTEL resources
- Formula based learning, which restricts intellectual enquiry.
- Promote critical thinking.
- Should be coupled with proper teaching tools and aids for effective teaching.

- (2) **Free teaching facility by Experienced Teacher**

All Students can access doubt clearing facility from experienced teacher through Toll free telephone/mobile during off hour so that new/ other institution will get benefited where experienced teachers are not available.

- (3) **Text-books (electronic and paper format) development:**

- The encourage and support writing of quality text-books, keeping in mind the Diploma level student,
- E-resources that may aid understanding of particular topics can also be developed.

- (4) **Design of experiments and set-ups:** Experimentation and fear of hardware is a common for technical education.

- Small kits to set up simple experiments will also be developed, for the student to assemble, and conduct the experiment.
- The basic idea is to ensure certain minimum standardized experiments to be mandatorily introduced in all the institutions
- Enabled teachers – with intellectual capability, rigorous training and an exploratory frame of mind.

- (5) **Short-courses and workshops in niche areas:**

- Periodically, short-courses in niche areas will be conducted to bring the latest in the field of engineering to the teachers. This will give the potential researchers an opportunity to interact with the experts, learn about the subject.
- The courses can span four days to two-weeks.

(6) **Teaching work-shops in specific cluster of courses:**

Attending several conferences to which teachers go to, to present their papers. However, there is no platform where teachers can interact with faculty at NITs/IITs/ other leading institutions/ leading authors in India and work out effective methods of teaching a subject. Such workshops will expose the teachers of this specific ideas of courses to fine-tune their teaching skills, clear fundamental doubts, develop new ways of looking at the subject, and possibly develop innovative new solutions to classical questions.

(7) **Seminars:** Invited researchers and teachers will be invited to deliver seminars which will be web-cast to participating institutions for creation of a good platform for interaction, sharing of resources, intellectual discussion, continued learning, and knowledge improvement. Such a platform should provide access to the teachers and students (potential teachers of the future) to a window of interaction with the bestbrains.

(8) **Reports:** The Institution will bring out annual reports on all activities of the Institution with review/comments/suggestions on technical education for reference to other institution.

(9) **Academic Audit**

Monthly Academic review can act as the catalyst for overall improvement of quality of technical education

(10) **Administrative and infra-structural support:**

- A healthy academic environment
- Beautiful gardens in and around
- Access to Seminar rooms/class-rooms with multi-media facilities (Smart Classroom) for institution
  - Access to Digitations of library/Central laboratories/Workshop for institution

~~THANK YOU ~~
